

Recruitment is stuck in the text era. From newspaper ads to job posts, from mail to email, from text messages to chatbots, little has truly evolved for decades.

## Text has become an insufficient hiring tool.

AI writing tools deepened the problem, rendering text irrelevant. It's time for a new era in recruitment.

# Text-Driven Hiring is already **failing** to Bring Sufficient Recruitment Results

Low Job Post Conversion – Increase Cost Per Hire

Candidate Drop-Off & No Shows are **#1** pain of staffing agencies

Increased Candidates' Mismatching

It's time to go beyond words with AI-powered  
**performanced-based** recruiting technology

# Introducing TaTiO

Revolutionize recruitment with Virtual Job Simulations that boost conversions every step of the recruiting funnel.

With TaTiO Virtual Job Simulations recruiters can:

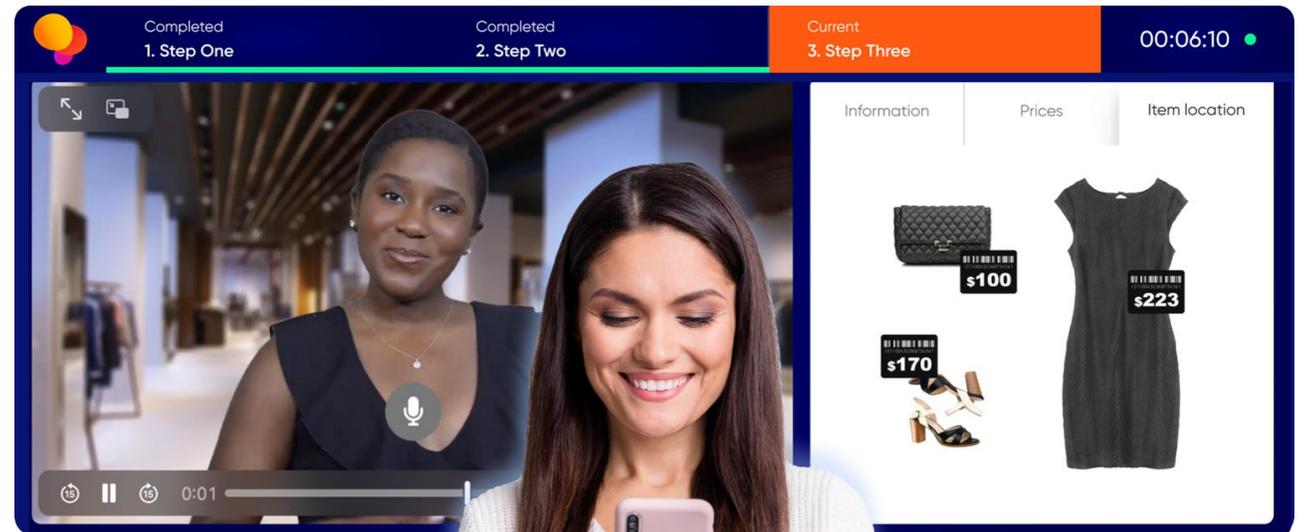

**ATTRACT**

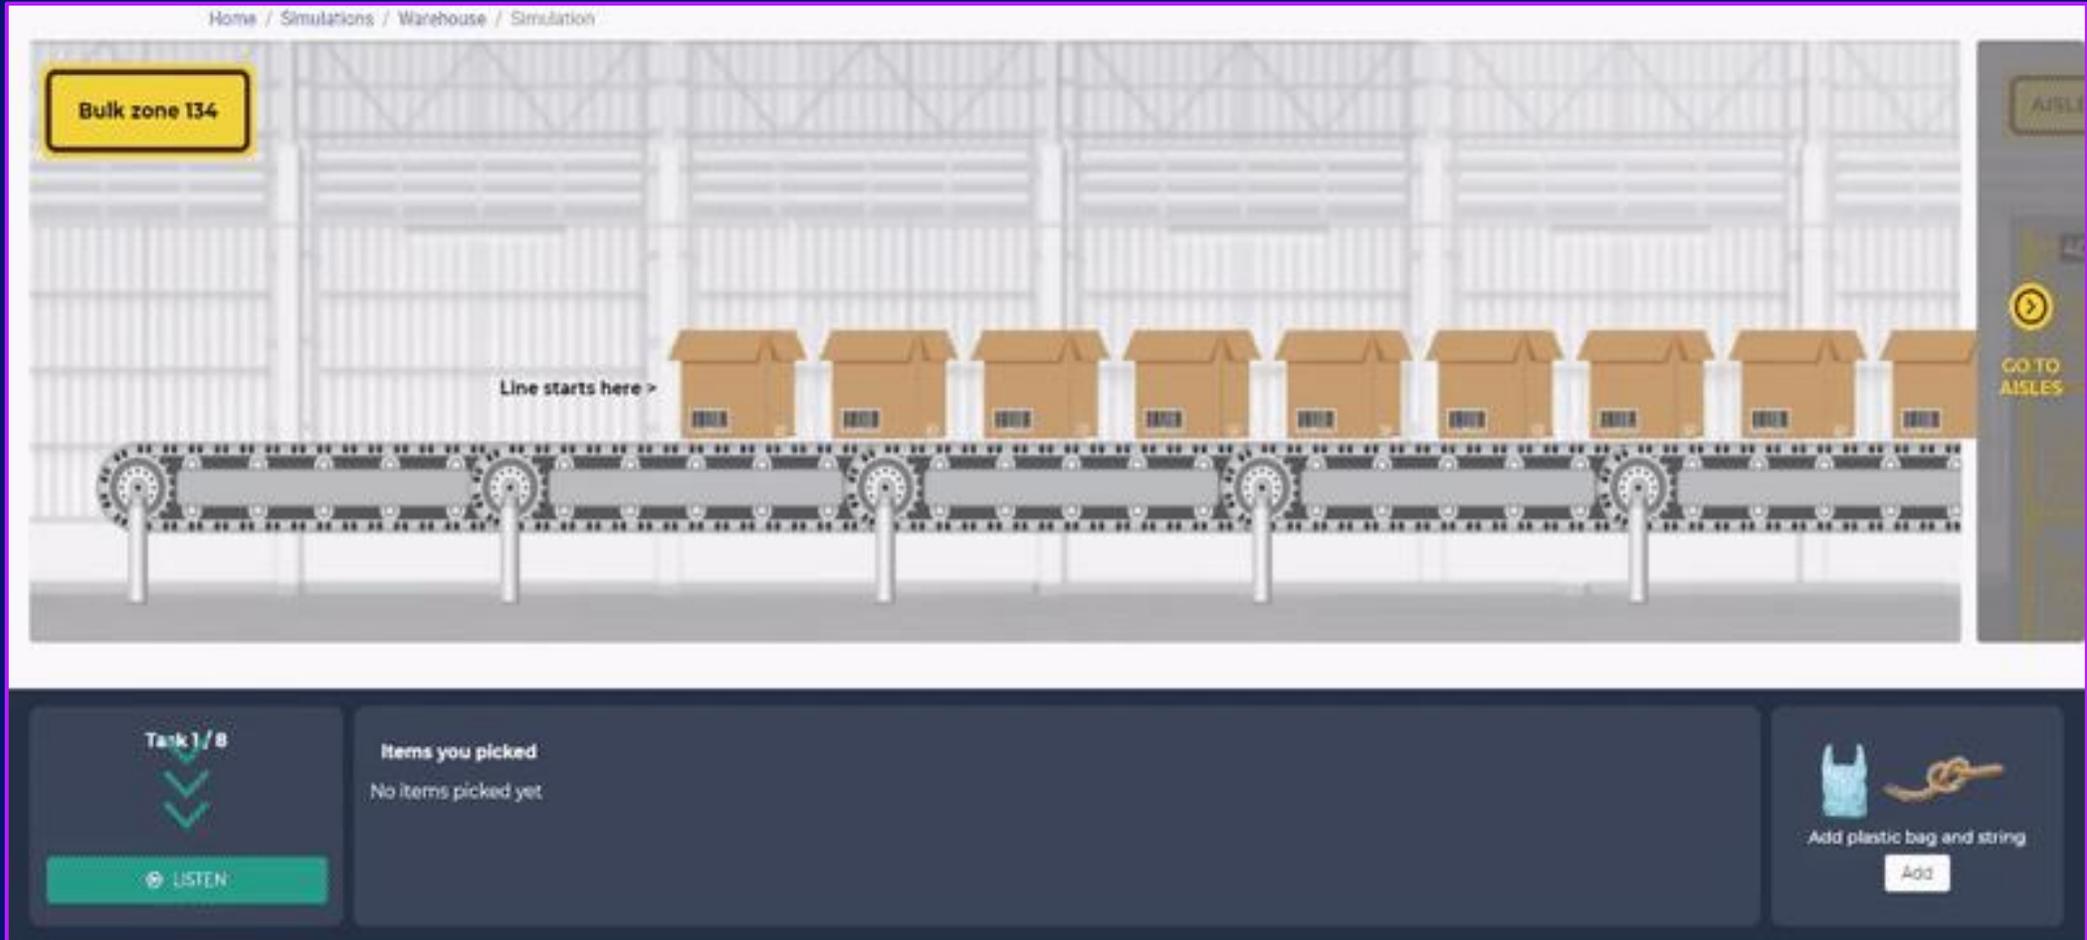

**ENGAGE**

**SCREEN**

# What the candidate goes through
